Subject: RE: [External] Empty tanks at LCP

Good Morning Prashant,

I am officially back in Region 4 and just checking in on the schedule for well abandonment. Please let me know if there's a projected date.

Also, we were able to resolve the last remaining issue on the BRA Memo with GEPD and EPA will be moving forward issuing final comments on the BRA Memo in the near future. Hopefully, we can also resolve comments on the OU2 Surface Soil Sampling Work Plan and move forward with the overall RI as well.

Sincerely,

Robert H. Pope, GS-14, Senior RPM
Superfund and Emergency Management Division
USEPA Region 4

Hi Prashant,

Thank you for that update. Please let us know when the well abandonment is scheduled so that EPA can move forward officially with closing out the need for financial assurance.

Sincerely,

Robert H. Pope, Acting Chief
Technology Integration and Information Branch
Technology Innovation and Field Services Division
Office of Superfund Remediation and Technology Innovation

Hi Prashant,

I'm following up on our conversation from last week. One of EPA's concerns regarding the removal and decommissioning of the system at LCP is that all the tanks either be empty of any liquids that need to be addressed or removed from the site. You indicated that you believed all the tanks had been emptied appropriately and that you would confirm with onsite personnel this week. Please let me know when you have confirmed that all the tanks are empty so that EPA can move forward regarding the financial assurance for the Removal Order.

Sincerely,

Robert H. Pope, Acting Chief
